

# Monster Hunting Guide 101

By: Conner M.

Hi. This is Conner, a monster hunter/karate man. Did you know monsters are real? Well I am going to tell you about each one (well, not EVERY SINGLE ONE, but a pretty decent amount) and how to catch them and if they are beginner, intermediate, and last but not least.... advanced. I have a monster hunting journal and I will share with you the innards of it.

First up, we have th thirteenth child, or Jersey Devil. This monstrosity lives in New Jersey in the forest of which it was born. It haunts its birth place. You see, he had mortal parents. His mother Had many children but when the birth of the child took place, it was extremely painful. They had him in the woods. He was your average baby. But when he got older he grew a horse head, bird wings, horse tail, and antlers and took off, just like that!!!!!!! Soon he started stealing children [I myself am a child but trust me, I am a very good source of knowledge for monsters so please don't exit out of this blog and lose trust in me!!! All monster hunters together right?[I'm hoping you shout YEAH!!! Right after you read that.If you didn't say it right now.]

So I am not amused by this. But it is just part of the story and I can't go back in time, so I cannot change what happened in the past, but I could change parts of this book...but you know, I want to give you the whole story. So, here's the whole story!!!]

The Jersey Devil also starts stealing livestock to eat in his lair. You could kill him with a large machete, sword, large knife, bullets, and hurt by a flaming rope whipping him. He is intermediate, but a pretty big thing to take on. I am not going to give you chills and nightmares, so don't go to bed after reading Bloody bones. Trust me. That guy is CREEPY. But I will include him in other months of the blog. So I hope all of you enjoy this blog, and have an awesome day. Dont let any demons get to you!!! [or ghosts or imps.] - Conner out.
